EXPERIENCE/PROJECTS

Aggro Gaming: *HTML, CSS, TypeScript, Node.js, Express, React, MySQL* [Live Site](#)  [GitHub](#)

- An online store that specializes in gaming products (products are not real, and users won't be charged). Users can register and login to add or delete items from their cart. Data retrieved is from a self-made MYSQL API.

Movie Database: *HTML, CSS, TypeScript, Node.js, Express, React, MySQL* [Live Site](#)  [GitHub](#)

- A full stack website which provides details/information for movies, series, and actors/actresses, directors etc. Users can register/login and have their favourite movies/shows, as well as ratings saved.

Premier League Website: *HTML, CSS, JavaScript, React* [Live Site](#)  [GitHub](#)

- A website which contains data for the English Premier League(soccer).
Data includes: latest news, fixtures, results, league table etc.

Weather Guide: *HTML, CSS, TypeScript, React, Node.js, Express* [Live Site](#)  [GitHub](#)

- An app which provides weather details for a searched location.

Spotify Clone: *HTML, CSS, JavaScript, React* [Live Site](#)  [GitHub](#)

- A Spotify clone with features such as listening to music, adding or deleting music from your Spotify library, as well as a search function.
(A Spotify premium account is required to play music, otherwise browsing the app is fine).

Marvel World: *HTML, CSS, TypeScript, React, Node.js, Express* [Live Site](#)  [GitHub](#)

- A website that provides information about Marvel news, comics, characters, movies, and TV series. Node.js/Express are used for API calls and routing.
